 The platoon belonged to the Belgian Homeing Pigeon club of 214 Lincoln street, Boston. They were shipped to this city in eighteen crates by express with one man to release them as soon as they arrived here. They were released at ten o'clock Sunday morning. These pigeons are used by the government for carrying messages, as they will always return to their original home, no matter how many thousands miles distant.

Rule His Railway Aldermen.
 Willimantic will lose two aldermen by the new normal rules by Director General McAdoo of the United States Railroad that railroad men must keep out of politics. They are Aldermen Flynn and Cannon.

Just when the new regulation will go into effect is the cause of a little thinking by many people. If the present office holders have until the end of their term to hold office, the aldermen will have until next year. Thomas Killourey, who is the train announcer at the station, is also a constable, but it is not known whether he will be allowed to run for office again or not, as the announcer must be an officer of the law.

New York Hospital.
 Lieutenant (Dr.) Charles Jenkins of this city, who was wounded and gassed in action in France has returned to New York, and is at a hospital in that city.

He left last week, but his furlough was to have been good up to the first of September, but he was recently ordered to report immediately at United States Hospital No. 2, New York city. Williams Bridge. He has practically recovered from his injuries, but is still on the hospital list at this time.

Leg Broken in Railroad Accident.
 George Wheeler of 819 Main street, this city, was the only person who was injured in the freight accident in Vernon, Sunday morning. The leg was broken. Wheeler is employed on a tobacco farm in Windsor and missed the last train out of Hartford for this city. He took a trolley from Hartford to Vernon, and then boarded a freight at that place, getting into a coal car on the part of the train which broke loose. He was unable to get out of the car before it struck the other cars and was thrown out of the car into a pile of coal. He was found two hours later and the only serious injury which he received was a broken leg.

Energy
 THE WORK OF THE KIDNEYS is to filter and cast out waste products and poisons from the blood stream. When the kidneys are weak or diseased, the waste matter remains in the system and causes pains in side or back, rheumatism, headache, stiffness of joints, sore muscles and other symptoms.

When a person's kidneys are out of order, the result is a general weakness, loss of energy, and a feeling of listlessness. It is a condition which is often overlooked, but which is the cause of many ailments.

Foley Kidney Pills
 are prompt in action and tonic in their healing and soothing effect on weak, sore, overworked, diseased kidneys and bladder.

Mrs. Mary Henderson, Mr. Carmel, & Co. write: "Before I used Foley Kidney Pills I was troubled with kidney trouble and my left side hurt so I could hardly get up in the morning. Pain is all gone now and am feeling fine." Lee & Osmond Co.
